

Senior QA Engineer Job Description

HedgeFacts, LLP is seeking an experienced software Senior Quality Assurance Engineer with proven leadership and automation skills to work with the development and product management teams to build system-level test automation and execute automated and manual tests. In addition, the qualified candidate will be responsible for building a robust quality assurance team from the ground up and leading the HedgeFacts QA group. Initially, this will be a one-person effort with assistance from product development resources with the expectation of growth.

Critical Job Elements:

- ✓ Automate scripting of web and thick-client Windows applications
- ✓ Testing HedgeFacts software applications completing all scripted scenarios without crashing and calculation results verification requiring SQL server data interrogation and other sophisticated data validation techniques
- ✓ Experience supporting testing activities for multiple applications/releases
- ✓ Strong attention to detail including certification that the HedgeFacts software is ready for production deployment while articulating quality risks to stakeholders
- ✓ Ensure that the QA team practices and procedures are followed for all software releases
- ✓ With input from senior developers and technology management, set quality assurance software release priorities.
- ✓ Coordinate production escalation defect process/reporting to ensure timely correction of customer problems and issues
- ✓ Identify and report to the development team, all bugs and manage the resolution and reporting of defects across the development, product management and operations groups.
- ✓ Build and train a Quality Assurance team and participate in the hiring/reviews, etc.

This is an excellent opportunity for professional growth and technical creativity in a casual work atmosphere. Our company is dedicated to the newest technologies in a low employee turnover organization.

The qualified candidate must be able to work and communicate with colleagues, management, and customers.

Medical and dental benefits start on the 1st day of employment and include employer contribution to premiums. 401K and disability benefits are offered as well.
